

THÉÂTRE DE LIÈGE

# Hyperborée Ersatz company

2-11 November 2024 | Liège, Belgium

According to myths, Hyperborea is a fantasy island located at the edge of the world with an unknown location. To discover this unreal place, the Ersatz company has concocted a moving immersive experience that takes us from the depths of the northern seas to the thousand-year-old ice of the ice floes to the sidereal plasma of the northern lights. A UFO project that is part of the continuity of their artistic approach, between illusion and visible materials.

**Dramaturgie** Camille Panza
